## District Governor Visits Rotary

Monday night was the official visit of District Governor Oliver C. McIntyre of Edmonton to the local Rotary Club. Each year there is one official visit to each Club and this was the one to the Raymond Club, which presented a 100 p.c. attendance to the Governor, excepting H. F. Allen and C. R. Wing who were in Salt Lake City attending Conference.

After the business of the meeting, community singing was enjoyed for a few minutes, then Miss Margaret McBride played two piano solos, Miss Alice Snow sang a vocal solo, and the remainder of the evening was turned over to the District Governor.

Speaking on the steady growth of Rotary throughout the world, and the good that was being accomplished, he referred to the visit of the International Governor in many lands, and of the honor that was bestowed on him, not because of the man himself, but because of Rotary, which he stated was filling a need in the lives of its members as individuals, and as citizens of the various nations of the world. New clubs were being organized at the rate of one every day of the week, and in lands where Jim Davidson first introduced Rotary a few short years ago and organized 22 Clubs, there are now 137 flourishing and active Clubs and more joining all the time.

He gave Rotarians something to think about in connection with the Club and its activities, and invited a 100 p.c. attendance at the District Conference in Banff, when Paul P. Harris, President emeritus and founder of Rotary would be present representing the International organization.

### NEWS NOTES

Dr. Allan Dafeo states that after the present summer, the famous Dionne quintts will cease to be an attraction for tourists and others at their Collander, Ontario home.

Jack Finch had the misfortune to tear the rear end out of his car on the trip to Cardston Wednesday for the fight. The car was put in the Garage there for repairs.

Mr. and Mrs. D. A. Bennett, with their daughter Marjorie and husband and son Dehlin returned Tuesday evening from a holiday trip to Utah. They report a very pleasant trip and

Richard Whitney's seat on the New York stock exchange sold on Tuesday for the small sum of \$59,000. Whitney has been sentenced to a prison term for grand larceny and so his seat was sold.

Time to clean up and get rid of the rubbish that has accumulated during the past winter. Smokes of rubbish fires scent the air each evening and piles of rubbish are adorning the streets. Just a word of caution don't let the fires get away from you. Every year seems to produce a fire or two from uncontrolled rubbish fires.

Mr. and Mrs. C. Nilsson celebrated their 56th wedding anniversary recently, when they were entertained by their children. They received congratulations from hosts of friends on their reaching this milestone together. We heartily congratulate them and wish them many more pleasant years together.

### EASTER

Light of the morning is gilding the sky,

Shades of the night time are now passing by;

Earth is awakening from darkness and gloom,

Jesus has triumphed over death and the tomb.

With the Easter time comes the remembrance of the sacrifice and atonement of the Son of Man for the sins of the world. How fitting that the resurrection should be observed in the spring of the year when nature is awakening after the sleep of winter into new life and activity with flowers blooming again, the song birds filling the air with their welcome music and everything seeking for that newness of life that all so greatly crave.

Should we not, in our thinking of the Easter tide, reach up for that greater and better life, promised to all in the Savior's words when He said "And I, if I be lifted up, will draw all men unto me."

May Easter with its eggs and color and new life, bring your mind back to childhood when it was really an event and not just another day, and may the spirit of the resurrection to a new and greater life lead us all to greater service and enjoyment of the life we have to live but once.

### NEWS NOTES

Gordon Brewerton of Cardston was in Raymond Tuesday.

R. W. Gardner, Auditor to the Town and Municipality was in Raymond over the week-end carrying out the Quarterly audit of the books of the two corporations.

The road from the J. W. Evans corner to the Club House was gravelled this week by the Town and the Sugar Co. combined. While the weather prevented hauling to the dam, the outfits were kept busy on the road. Gravel was sent to the dam on Tuesday again.

Raymond's Public school entry "The Test" directed by Miss Gladys James placed second in the festival at Lethbridge Wednesday, and the High School drama "A Night at an Inn" directed by Miss Esther Kittlitz also placed second. Congratulations to the teachers. Thurston Smith was a runner up for individual acting honors, being beaten out by a narrow margin by one of the Barnwell players.

Geo. H. Brewerton and Misses Iris Jones and Sara King returned Monday from a three weeks motor trip which took them to Vancouver and down the Pacific Coast to San Francisco and Los Angeles, and Hollywood, and home through Salt Lake City and Lutte, Montana. George reports a pleasant and enjoyable trip, but states that people in the States are dissatisfied and apprehensive of the future.

## Vancouver Bests Jacks In Playoffs

The playoffs between Vancouver Westerns and the local Union Jacks are over, the visitors defeating the locals by a margin of 14 points in the two games, and the Westerns are now in Saskatchewan seeking further victories from the Saskatoon Grads of our sister province.

The games on Friday and Saturday night were fast and close. Despite the fact that the visitors won the Jacks proved to fans that they are a real team, and the Westerns were forced to the limit to take the games, putting on all the speed and pressure they had to prevent the Jacks from passing them, and had the Jacks been 'on' in their marksmanship, the speed of the Vancouverites would not have turned the trick, because the Jacks got more shots at the hoop than did their opponents, but they just didn't get the breaks, and even on their foul shots they couldn't seem to count.

Willoughby was the marksman deluxe in the visiting squad, and he could stand half the length of the hall and rig up a basket nearly every shot. Too far away to be considered dangerous, he would let go with one of those long shots, and in it would go, while his guard was getting ready to check him. The visitors also had a dribbling pass that made them hard to check, but the Jacks stayed right on them and never lost an opportunity to grab the apple and work it under the basket for a trial shot, and then see their efforts wasted when the hoop proved too small for the ball.

The games were fast and rough, and Henry Viney and Rulon Leavitt had their work cut out for the mewith the whistles. Fouls were frequent, which was to be expected in such a fast and furious encounter. There was no bad blood amongst the players, but they were putting all they had into the game and it was impossible not to bump opponents frequently and sometimes pretty hard. On Friday night Vancouver had 10 personal whistles up against them, while the Jacks had 12. Saturday night while the Westerns were tooted for 23, Raymond escaped with 20. On the second night each team lost four men for fouls, Vancouver losing Ross, Bardsley, Mayers and Wright, while Raymond lost Fairbanks, Turner, Nilsson and Rolfson.

Following is the lineup and scores for the two games:

Friday night: Westerns—Willoughby 13; Bardsley 10; Mayers 7; Wright 12; Neil 0; Beaton 2; Ross 5; Ritchie 0; TOTAL 49.

Jacks—Nalder 4; Fairbanks 12; Stone; Galbraith; Nilsson 5; Turner 18; Rolfson; King; Hague 1; Heggie. TOTAL 40.

Saturday night: Westerns—Ross 5; Willoughby 14; Bardsley 6; Mayers 8; Wright 1; Neil; Ritchie 1; Beaton 2; Gordon. Gross. TOTAL 37.

Jacks—Nalder 8; Fairbanks 7; Turner 8; Nilsson 1; Rolfson 3; Hague 2; Galbraith; Heggie; Stone; King 3. TOTAL 32.

### NOTE ON THE GAME

Vancouver's coach said he could take the Jacks and in three months steady work he could whip any amateur team on the Dominion courts.

People were present from all over Southern Alberta, and most of them certainly got an eye full of basketball while the two teams battled it out.

Jack Neal returned to Raymond Tuesday night after spending the winter in California.

The boys from Vancouver were taken care of by Mrs. Stevenson and greatly enjoyed their brief stay in the town.

Willoughby was the life saver of the visitors. He is a great sniper and made long shots that would take the heart out of any amateur team.

Wally Mayers, still famous for his one-handed shots showed some fine playing. He is slowing up a little though, and the younger fellows are showing the speed.

Westerns can thank a longer playing season and better physical condition for their victory here. Given an even break in physical condition through games played the Jacks would be in Saskatchewan instead of the Westerns.

Donny and long Mr. Ross from Vancouver seemed to enjoy pushing each other this way and that when the referee was not looking. Donny can hand it out to the toughest of them when they ask for it, as Ross learned before the series finished.

To be beaten by a team like the Westerns by only 14 points in two games is no disgrace to any team, and the Jacks should feel encouraged for another season. Here's hoping they stay together. With this year's experience behind them, they should go a long way another year toward the Dominion crown. Congratulations boys, Raymond is justly proud of a mighty fine basketball team.

## Boys Do Very Well In Eliminations

Congratulations to the Athletic Association including Gold en, Vely, Shirley, Rayo, Cyril & others, also Curly, trainer and conditioner, for the splendid showing made by the Raymond boys in the Boxing Eliminations at Cardston on Wednesday night. It's too long a story to detail each contest, but for our boys to take eleven bouts out of eighteen is something, and from present appearances we will have at least seven boxers in the finals, which are scheduled for Cardston on April 29th and 30th.

Here is how Raymond boxers stacked up in their bouts:

Keith Finch lost to Kay Burnham in the 70 lb. class.

Bob Lafferty got the nod over R. Angus in this weight.

Elmo Still won from R. Goble in the same class.

Jerry Witbeck beat E. French in the 80 lb. class.

Wayne Burr won from Donald Morris in the 80 lb. division.

Stuart Robinson lost to Hughie Sloan in the 90 lb. class.

Jack Finch lost to C. French in the 100 lb. class.

Ralph Richardson won over D. French in the 110 lbs.

Tolo Takahashi put Vern Angus to sleep in the 126 lb. class for the only complete knockout of the evening.

Dale Reay won over C. Adamson in the 135 lbs. Novice.

In the semi-finals Bob Lafferty lost to Kay Burnham.

Wayne Burr won from M. Grabovach in a semi-final bout.

Francis Coombs bested Jim Wiley in the semi-finals in the 135 lbs. Novice.

John Heggie won the semi-final from Merlin Sorenson of Magrath in the 110.

Mark Hicken lost to Hughie Sloan in the semi-finals of the

90 lb. class.

Elmo Still lost to Kay Burnham in the finals of the 70 lb.

Francis Coombs outpointed Dale Reay in the finals of the 135 lbs. Novice.

John Heggie lost out to Kay Myers in the 110 lb. finals in a good bout.

Besides these winners we will have the following in the finals at Cardston:

Tolo Takahashi, 126 lbs. novice. Verle Meldrum, 135 lbs. Open. Shogoro Kawasaki in the 147 lbs. novice. Curly Sloan in the 160 lbs. open. Jerry Witbeck in the 80 lb. Open Class.

There was quite a large crowd present from Raymond, and the entire crowd was in fine spirits and gave the boys a great hand as the bouts progressed.

Pres. Heber F. Allen, C. R. Wing and party returned Tuesday after attending the Annual Church Conference in Salt Lake City, Utah.

The horse shoe fans started work again Wednesday. If there's any of them you have difficulty in locating look on the horse shoe courts, they'll likely be there.

O. H. Snow was busy today moving the office equipment for the Municipality into the old office and he will be in that building with Municipality business from now on.

Brownie, son of Mrs. Arch Witbeck, had the misfortune to break his arm between the elbow and the shoulder while playing around a bonfire Wednesday night. Dr. Madill dressed the arm and he is doing as well as can be expected.

## Victoria Garden Beauties Bring Joy to Thousands

SHIRLEY TEMPLE, darling of movie-going millions, announced world-wide opinion in a sentence when she said of the Empress Hotel gardens in Victoria, B.C.: "They're beautiful, I'd love to stay here a whole year."

These and other choice gardens of the British Columbia capital will be thrown open to public view for a full week starting May 4 during the eight-day garden festival held annually by the colorful city.

Garden week in Victoria has become an institution where untold thousands of visitors flock to Vancouver Island every spring. The gardens at this time of the year are a glorious riot of bloom because in that western city the favorable weather gives year-round golf and flowers which cannot be surpassed for size, variety and rich colorings.

In addition an entertaining program has been planned by the management of the Empress Hotel, sponsor of the event. There will be flower shows, talks on flowers by world famous horticulturists, and many informal parties.

The above pictures show Shirley Temple in a favorite spot in the Empress Hotel gardens during one of her recent visits; a visitor showing her son floral sculpture at his best; and a view of the famous top-covered Empress Hotel.

### A VEGETABLE GARDEN FOR EVERY FAMILY

Spring is here, and planting time is near. Farmers are busy treating seed grain, checking over implements and so on, and gardeners are getting their lists of seed decided on and their garden plots ready for planting. To plant and to reap a harvest of some sort seems as natural as breathing, inborn it seems, right in man.

Every family should raise a small garden. And if we might be permitted to say, we would suggest that the harder it is for them to finance, the more they need a good garden. There are few, if any things in life that will bring a better return for the same outlay than will a good garden; and Raymond is fortunate in having good soil and plenty of water to make a garden grow well and produce well. While produce from gardens may be cheap to buy, it is still much cheaper to produce your own, and where is the benefit of potatoes to YOU even at 50 cents a sack if you haven't got the 50 cents to buy a sack with. The same might be said of carrots, beets, tomatoes, and a dozen and one other things that can be and are grown every summer.

There are plenty of vacant lots that owners would be glad to have worked, provided people would keep them clean and take care of them. There is no excuse either for any individual or family going without a garden because of lack of seed, because we have heard members of the Bishopries offer to furnish seed to anyone who were not able to furnish seed for themselves, and for years past the Town has made the same offer to any unable to obtain seed for their own planting. So again we say every family should have a garden.

It is shocking to glance over relief orders and see the calls for vegetables that could just as well be grown by individuals. Vegetables that are essential to good health, and are absolutely indispensable to children while they are growing. Hundreds of dollars every year are spent by relief agencies for food that

could just as well be grown by those who need it.

What can we do about it? Shall we refuse it to those who ask? Sometimes it would be a real joy to say no were it not for the wives and children at home. They are the innocent victims of a disease that makes relief officials everything from a lizard up, and makes those who live on relief a spineless worm that loses character and self respect every time a relief order is asked for. We are not speaking of the afflicted who are unable to do for themselves. We refer to able-bodied men who are looking for something for nothing, and who would rather group up on the streets and in loafing places and find fault with everybody who is ambitious and self-sustaining, than to work up a good healthy sweat once in a while in providing for the care and welfare of their families.

When governments, Dominion, Provincial and Municipal, get to the point where they will say NO, and stand by each other in their decisions, then will we see these relief recipients bestirring themselves to fill a bin with coal and a cellar with vegetables as people did in the old days, so they will know where to go to get something for a meal. In communities like ours there is no reason why every family should not have a cellar full of staple vegetables and a bin full of coal before winter sets in, and it would really be a blessing if relief officials could and would see that they did this during the summer and fall, or else go without. It is bad enough to ask taxpayers to foot the bills of those unable to work, but it is an absolute insult to ask them to feed the stomachs of able bodied, shiftless men who merely argue that the world owes them a living and take it for granted that they will always get it. When the Provincial Government makes it a little harder for people to get relief, and quits threatening Town officials with imprisonment if they refuse relief to certain people, then things will be tightened up considerably, as there is no one knows any better than the man on the ground who are the worthy and the unworthy relief cases in every community. This is one thing that taxpayers of the Province might well ask for, as it would save them thousands of dollars every year.

T. K. Roberts and three other carpenters are busy on the new home of H. S. Allen, and Tommy says when it is completed it will be one of the finest homes in the town.

### Our Edmonton Letter

(By T. B. Windross)

Edmonton, April 12—The 6th session of the eighth legislature of Alberta is ended. The seventh, expected to be a special session in late summer, is now in prospect, and there still are periodic persistent rumors that a general election may be called in the autumn.

If the election were to be called, it is supposed in circles close to the government, it would follow, and be based on, the decisions of the Privy Council on the three bills which are being referred to the Supreme Court of the British Empire; the press act; the bank licensing act and the bank taxation act. There are also the questions of the

The Stanley Cup playoffs are over, finishing Wednesday night in Chicago, when the Black Hawks of that city took the fourth game from the Toronto Maple Leafs by a 4 to 1 score, to grab the coveted hockey trophy for coming year. Toronto put up a great fight but the Chicago team seemed to be getting the breaks all the way through the fast and rough game.

federal right of disallowance of provincial statutes, and the right of a lieutenant-governor to withhold assent to provincial points, the Supreme Court of Canada ruled against the Alberta government last month.

The session just closed saw the introduction of 114 bills, an all-time record for an Alberta legislature, and believed to be a record for any Canadian legislature. The vast majority of them were amendment to present acts, and many of them were minor amendments. In all 102 of the bills were passed; the other dozen died by the wayside during the nine-week session.

Almost a score of the acts that were passed had to do with new taxation; the net increase in the burden on the province's taxpayers during 1937 and 1938, as a result of the session, was estimated at \$600,000, of which the chief items were these:

Increase of \$100,000 from the Income Tax amendments, boosting rates on companies doing business in the province.

About \$100,000 new revenue from increased rates under the Succession Duty tax act.

Another \$100,000 under the new Securities Tax act, levying two per cent on first, second and third mortgages.

Increase of about \$44,000 in the taxation on Trust and Loan companies through increased rates under the Corporation Tax act.

Further tax of \$105,000 on banks for a total of \$220,000 a year in provincial levies in addition to municipal and federal taxation. There are fears in Edmonton that this new increase in bank taxation, gauged by branches, may cause the closing of some of the many branches in the province which have been operating at a loss.

Then the wild lands tax of two cents an acre, estimated to yield \$45,000 during the next year, and expected to force much new land into production.

And the new mineral lands tax, expected to yield \$140 through a levy of a third of a cent per acre on all mineral rights.

But the outstanding new tax act of the session was that providing for a production tax, by which the government gave itself authority to claim seven per cent of all agricultural products produced in the province.

It is the same type of tax that has been in force in the Soviet union of Russia for years—and hardly anywhere else. It is regarded by authorities as a penalty on production, because the more real wealth a farmer produces in goods, for the benefit of the state, the heavier he is taxed by the state.

The Alberta act is to be referred to the courts by the Government itself in order to test the validity of the legislation, and in any case will not be en-

forced this year, members of the cabinet told the legislature. The government said that the idea is to make the production tax a substitute for other taxation, but there was nothing explicit in the act about doing away with other taxation of farmers when the production tax is enforced. It was noted, also, that the new tax applies to farmers alone; it is not to be enforced against any other industry and business in Alberta. It was observed that with enforcement of the production tax the government would be sure of collecting, in produce the taxes levied against farmers who in the past have not been paying taxes in money.

The Social Credit board report was brought into the house in the dying days of the session, and the government side ignored a motion from the opposition benches to discuss it. Thus there was no consideration of Social Credit board activities or achievements.

Also left dangling in mid-air as the session closed was the move to reduce the size of the legislature. Hon. Lucien May-

to cut the membership of the House from 63 to 53, but the motion was allowed to "die" on the order paper as the house prorogued. Thus ended the resolution adopted by the legislature a year ago, asking the Government to bring in, this year, legislation to cut the size of the House and the number of paid Cabinet ministers.

The reason for the collapse of this year's resolution, is was stated in legislative circles was that members of the Social Credit caucus who were leaders and supporters of the Insurgency a year ago were afraid that they would be the ones who would be deprived of their seats if the government were allowed to change constituency boundaries.

## BORROWING AT THE BANK to operate more profitably

FARMING, DAIRYING,  
STOCK RAISING—and other  
lines of agricultural business often  
need improvements or new equip-  
ment, to stop waste and make

purposes. If they have good se-  
curity, but not the ready cash,  
they will wisely borrow.

**FOUND**—A sum of money.  
Owner call at Raymond Electric  
and identify it and pay for this  
ad.

**FOLKS**—Your Royal Yeast  
package fronts will greatly assist  
Mrs. Blanche Scoville NOW.  
Contest closes May 31st. Your  
assistance has been greatly ap-  
preciated. Give her one more  
boost, please.

**WANTED**—Labels from  
Gillett's lye tins; will pay 2 1-2  
cents for each label. Bring them  
to Safeway Stores, Raymond.  
3A15.

**LOST South of Town**—Black  
2 year old colt branded—H on  
right shoulder; Sorrel 2 year  
old colt branded quarter circle  
WS on left shoulder. Reasonable  
reward for information.—P. H.  
Schneider.

**FOR SALE—ALL OUR HOR-**  
**SES**—A Private Sale of ap-  
proximately 50 head of these  
horses and 5 mules will be held  
on Wednesday, April 27th, at  
Raymond Stampede Grounds.—  
Knight Sugar Company Limited,  
Raymond, Alberta. 2A22

### WEEKLY LETTER

**WHAT CORN VARIETIES**  
**SHOULD BE RECOMMENDED**

Experimental Stations and  
other institutions are frequently  
asked to recommend a variety  
of corn for certain districts.  
In order to be able to give in-  
telligent recommendations it is  
necessary to know not only some  
thing of the weather conditions  
prevailing in the district, but  
also something of the way the  
crop is going to be handled.  
Corn varieties vary very wide-  
ly in their habit of growth and  
some varieties suit certain con-  
ditions much better than others  
do. Where corn is to be grown  
for ensilage purposes and cut  
with a corn binder it is advis-  
able to use a fairly tall growing  
variety and one which reaches  
a fair degree of maturity. Early  
strains of Northwestern Dent  
and Minnesota No. 13 are suit-  
able varieties for this purpose.

Where the corn crop is ex-  
pected to ripen or to approach  
that stage as nearly as possible,  
and where it is utilized by  
turning live stock into the field  
to do their own harvesting,  
earlier varieties such as Gehu,  
Improved Squaw, or White Flint  
can be used to best advantage.

In districts where the season  
is very short and cool, Manalta,  
a very early yellow flint variety  
would give much better results  
than the three early flint vari-  
eties mentioned above. The  
shortness of the stalks and  
their heavy sucker growth is  
no detriment to any of the  
varieties when used in this  
way.

**DO YOU KNOW WHEN TO**  
**SEED GRASS ON DRY LAND**

The best time to seed grass  
in dry land regrassing is in the  
late fall, just before freeze-up.

This is one of the very im-  
portant conclusions derived from  
the regrassing experiments con-  
ducted in the dry areas of Al-  
berta under the P.F.R.A. The  
problem in the drought area  
is to establish a grass plant be-  
fore the hot summer weather  
arrives. By having the seed in  
the soil just before freeze-up  
germination takes place immed-  
ately spring conditions are fav-  
ourable. Under ordinary condi-  
tions spring seeding does not  
take place until long after  
spring run-off. Where the seed  
is already in the soil before  
spring run-off takes place, seed-  
lings have an opportunity of  
utilizing considerably more moi-  
sture than those seeded after  
the run-off has taken place.  
Consequently, the chances of  
establishing a stand are much  
better from the late fall seed-  
lings than from early spring

How to Strengthen Weak Colonies

Examination of colonies at the  
Lethbridge Experimental Sta-  
tion apiary have shown that the  
principal causes for weak col-  
onies are: Loss of queen, poor or  
drone producing queen, or in-  
sufficient stores.

Giving one comb of emerging  
brood to a weak colony is one of  
the simplest methods of streng-  
thening weak broods. This meth-  
od has given results equal to any  
other of the number that have  
been tried. Another method,  
which has given good results  
but which is more difficult to  
use is to place a weak colony a-  
bove a strong one with a sheet  
of paper and a queen excluder  
between the two. The weak col-  
ony is left in this position for  
three weeks, when the original  
brood chamber of the strong  
colony is moved to a new stand  
and the weak colony is placed  
on the old base so that it will  
receive the strength of field  
bees. Shaking a pound of pack-  
age bees into a weak colony has  
also been effective in turning a  
worthless colony into a good  
producer.

### NEWS NOTES

J. H. Bridge, Logan Garment  
Co. representative for this dis-  
trict, was a Raymond visitor  
Monday.

Rulon Dahl is getting around  
pretty well now, though unable  
to do any work. The hardest  
part of his accident now is the  
inactivity that it necessitates.

Hon. Solon Low and Hon. W.  
A. Fallow will be here Tuesday  
next to meet with local officials  
regarding the road program of  
the district.

A beautiful rain storm, early  
Sunday morning, soaked things  
up again, and about one-quarter  
of an inch of moisture fell.  
Roads Sunday forenoon were  
slippery and very hard to drive  
on.

Dr. Madill has his car back  
from the garage again, after  
a smash-up near Stirling just  
after the blizzard. Doc and an-  
other driver both came into an  
eight foot cut from opposite  
sides at the same time, and be-  
fore the cars could be brought  
to a stop they had crashed.  
Luckily no one was injured and  
the cars were just moving when  
they collided. Both vehicles were  
fully insured so the drivers had  
very little to worry about.
